TOOLWORX TO SPEAK AT AUTO ID SHOWCASE

BRIGHTON, Mich., <March 22, 2006 >-- ToolWorx Information Products, Inc. ("ToolWorx"), of Brighton, Michigan announces that Ed Weber, VP Sales and Marketing, has been selected to speak at Auto ID Showcase on April 26, 2006 at Rock Financial Showplace in Novi, Michigan. He will co-present a session entitled "Traceability and Error-Proofing – Case Studies" scheduled for 2:00 P.M. His co-speaker is Maggie Mustard of TRW Automotive.

This 11th annual showcase, presented by AIAG, the catalyst for the global automotive industry's efforts to establish a seamless, efficient and responsible supply chain, will focus on the need for global traceability. Industry experts from OEMs, supplier and solution provider organizations will present on international supply chain RFID standards efforts, AIAG Auto ID standards and current initiatives, traceability and error-proofing best practices, 2-D direct part marking, and emerging technologies. Honda of America will highlight their use of automatic identification in the keynote presentation, and General Motors Corp. will be announcing new labeling updates. ToolWorx will also be exhibiting their error proofing and traceability systems in the exhibit hall. To register, visit the AIAG Web site at www.aiag.org or contact AIAG Customer Service at (248) 358-3003.

About ToolWorx

Founded in 1997, ToolWorx Information Products, Inc. is a developer of automated data collection applications, specializing in lot/part traceability and error proofing. Our flagship product suite, ToolWorx Bridge™, gives companies the ability to accurately collect information from the shop floor, warehouse or out in the field using barcodes, radio frequency identification (RFID) tags, or programmable logic controllers (PLC). The collected information is integrated real-time with a customer's internal enterprise business systems. We take pride in our ability to customize and install a system in less than 30 days.
