TOOLWORX ANNOUNCES BORRIES MARKING SYSTEMS PARTNERSHIP

BRIGHTON, Mich., <December 3, 2004>-- ToolWorx Information Products, Inc. ("ToolWorx"), of Brighton, Michigan announces that they have been accepted as an Authorized Reseller for Borries Marking Systems ("Borries"). Borries is a designer and manufacturer of marking machines that assist in the identification and traceability of parts. This partnership expands ToolWorx's one-stop capabilities for lot/part traceability and error proofing to include part identification as well as part reading.

About ToolWorx

Founded in 1997, ToolWorx Information Products, Inc. is a developer of automated data collection applications, specializing in lot/part traceability and error proofing. Our flagship product suite, ToolWorx Bridge™, gives companies the ability to accurately collect information from the shop floor, warehouse or out in the field using barcodes, radio frequency identification (RFID) tags, or programmable logic controllers (PLC). The collected information is integrated real-time with a customer's internal enterprise business systems. We take pride in our ability to customize and install a system in less than 30 days. For more information, visit www.toolworx.com.

About Borries

Borries is one of the largest manufacturers of marking machines and total identification systems. Established in Germany in 1951, our machines and systems are designed and manufactured in our own facilities for maximum reliability and durability. Our U.S. facility was established in Michigan to better support our automotive and manufacturing customer base. Borries equipment is found in the automotive industry, automotive suppliers, in aircraft production machinery and automation, as well as in electrical, steel and other basic industries. More information is available at www.borries.net.
