TOOLWORX TO SPEAK AT INTERMEC PARTNER SUMMIT

BRIGHTON, Mich., <January 7, 2010 >-- ToolWorx Information Products, Inc. ("ToolWorx"), of Brighton, Michigan announces that Ed Weber, VP Sales and Marketing, has been selected to speak at the Intermec Partner Summit on February 8-10, 2010 at Rosen Shingle Creek Resort in Orlando, Florida. He will co-present two sessions on the topic of Smart Printers and related ToolWorx applications for error proofed labeling.

About ToolWorx

Founded in 1997, ToolWorx Information Products, Inc. is a developer of automated data collection applications, specializing in lot/part traceability ("track and trace") and label error proofing. Our suite of products helps companies minimize the scope of a product recall or product defect investigation as well as ensuring that all products and packaging are labeled correctly. In addition, we offer integrated software and hardware systems for managing inventory and conducting inspections, both inside and outside the facility, using bar codes and/or radio frequency identification (RFID) tags. The collected information can be integrated real-time with a customer's internal enterprise business systems or operate standalone, depending on the customer's requirements. For more information, visit www.toolworx.com.

About Intermec

Intermec Inc. (NYSE:IN) develops and integrates products, services and technologies that identify, track and manage supply chain assets and information. Core technologies include rugged mobile computing and data collection systems, bar code printers, label media, and RFID. The company's products and services are used by customers in many industries worldwide to improve the productivity, quality and responsiveness of business operations. For more information about Intermec, visit <http://www.intermec.com> or call 800-347-2636.
