TOOLWORX COMPLETES LOT TRACK PROJECT FOR PTI

BRIGHTON, Mich., <April 11, 2005 >-- ToolWorx Information Products, Inc. ("ToolWorx"), of Brighton, Michigan announces that it has successfully implemented its Lot Track system (TWLot™) at PTI Engineered Plastics ("PTI") in Clinton Township, MI. PTI purchased TWLot™ so that they could respond quickly and easily to assist their customers in the event of a product recall or defect investigation. As a result of the success of the project, PTI will be participating in several joint seminars in 2005 with ToolWorx regarding lot traceability and error proofing.

About ToolWorx

Founded in 1997, ToolWorx Information Products, Inc. is a developer of automated data collection applications, specializing in lot/part traceability and error proofing. Our flagship product suite, ToolWorx Bridge™, gives companies the ability to accurately collect information from the shop floor, warehouse or out in the field using barcodes, radio frequency identification (RFID) tags, or programmable logic controllers (PLC). The collected information is integrated real-time with a customer's internal enterprise business systems. We take pride in our ability to customize and install a system in less than 30 days. For more information, visit www.toolworx.com.

About PTI

PTI Engineered Plastics, Inc. is a thermoplastic injection molder and full service supplier in short run through production components. Our captive toolroom offers 30 toolmakers, and is equipped with 13 CNC machines. Our present manufacturing facilities offer 34 injection molding machines and our Plant 2 facility offers a unique microcell concept. Our in-house tooling statement focuses on fast turnaround in specified materials with deliveries from 2-5 weeks for functional prototype parts which allows you to enter your market schedules early and secure your manufacturing goal.
