TOOLWORX TO PRESENT SMART PRINTING CASE STUDIES

BRIGHTON, Mich., <February 12, 2009 >-- ToolWorx Information Products, Inc. ("ToolWorx"), of Brighton, Michigan announces that Ed Weber, VP Sales and Marketing, has been selected to present several case studies relating to Intermec Smart Printer applications for error proofing in a webinar series entitled "See How Intermec Smart Printing Can Drive More Business Your Way" being held on February 13th and 17th. ToolWorx will be highlighting their Smart Printer products including PLC Printer™, SmartPack™, and others along with how these products are currently being used at several customer facilities to eliminate mislabeling.

About ToolWorx

Founded in 1997, ToolWorx Information Products, Inc. is a developer of automated data collection applications, specializing in lot/part traceability and error proofing. Our flagship product suite, ToolWorx Bridge™, gives companies the ability to accurately collect information from the shop floor, warehouse or out in the field using barcodes, radio frequency identification (RFID) tags, or programmable logic controllers (PLC). The collected information is integrated real-time with a customer's internal enterprise business systems. We take pride in our ability to customize and install a system in less than 30 days. For more information, visit www.toolworx.com.

About Intermec

Intermec Inc. (NYSE:IN) develops and integrates products, services and technologies that identify, track and manage supply chain assets and information. Core technologies include RFID, mobile computing and data collection systems, bar code printers and label media. The company's products and services are used by customers in many industries worldwide to improve the productivity, quality and responsiveness of business operations.
