

- Specialize in data collection systems for the manufacturing and distribution industries
- Developed ToolWorx Bridge™ to provide customized, *not custom*, data collection solutions that are affordable, easy to use, and expandable
- RFID Authorized Honours Partner for Intermec; Microsoft Independent Software Vendor (ISV) and VBA Development Partner
- Principals have over 30 years experience in Automated Data Collection

TWLot Lite™ System

- Designed specifically for small to medium size manufacturers with migration path to our network version of TWLot™
- Runs under Windows 200x/XP using Microsoft standards for maximum longevity and flexibility
- Identifies the suppliers of all parts and raw materials received and the customers of all shipments, including:
 - The name of the customer or supplier, address, telephone number, fax number, and e-mail address
 - Type of part
 - Date received or shipped
 - Quantity and type of packaging
 - Lot number
 - For finished products only, the specific source of each raw material or component part that was used to make every lot of finished product
- Data entry screens are set up for keyboard and/or bar code scanning
- The system maintains linkage of all lot numbers from supplier materials through customer finished product
- Can import Customer, Vendor, and Part data from other systems
- Can export production data to other systems for further analysis (e.g. Excel)
- Instant access to all reports at the push of a button

TWLot Lite™ Sample Report

Where Used Lot - Summary
July 28, 2005

Component : R2100
Lot Number : LX73QN
