

- Specialize in data collection systems for the manufacturing and distribution industries
- Developed ToolWorx Bridge™ to provide customized, *not custom*, data collection solutions that are affordable, easy to use, and expandable
- RFID Authorized Honours Partner with Intermecc; Microsoft Independent Software Vendor (ISV) and VBA Partner
- Principals have over 30 years experience in Automated Data Collection

TWM2M™ Data Collection for Made2Manage

- Uses standard Ethernet-based terminals for data collection (same network backbone as your current PC's)
- Terminals can be wired stationary, wireless stationary, or wireless portable (including Pocket PC-based PDA's)
- Supports labor functions (i.e. clock-in, clock-off job, break, clock-out) and inventory functions (i.e. receiving, shipping, job issue, move)
- The system can be enhanced easily as business needs change without changing the underlying software
- Collects data automatically from scanners (both bar codes and RFID tags) and PLC-controlled machines (presses, conveyors, etc.)

ToolWorx Product Suite

- TWLot™ Lot Traceability / Recall Management System
- TWWarehouse™ Warehouse Control System
- TWTrack™ Returnable Container Tracking System
- TWTool™ Tool Crib System

TWM2M™ Hardware Support
