

- Specialize in data collection systems for the manufacturing and distribution industries
- Developed ToolWorx Bridge™ to provide customized, *not custom*, data collection solutions that are affordable, easy to use, and expandable
- RFID Authorized Honours Partner for Intermec; Microsoft Partner
- Principals have over 30 years experience in Automated Data Collection

## *TWMobile™ Mobile Inspection System*

- TWMobile™ is a complete data collection system designed to assist mobile inspectors, repair / cleaning personnel, engineers, etc. to scan / record services performed, print professional reports on the job, and automatically upload service data to a home office system for billing and customer access
- Upload customer / route data before you begin your route so you don't have to be connected to an expensive Wireless Wide Area Network until you're ready to upload your completed service report(s)
- Works with any Windows mobile handheld computer to scan at each location with only that location's data
- Any authorized person can view customer information via a LAN, WAN or over the Internet
