

- Specialize in data collection systems for the manufacturing and distribution industries
- Developed ToolWorx Bridge™ to provide customized, *not custom*, data collection solutions that are affordable, easy to use, and expandable
- RFID Authorized Honours Partner for Intermec; PCM Image-Tek Reseller
- Principals have over 30 years experience in Automated Data Collection

ToolWorx SmartApply™

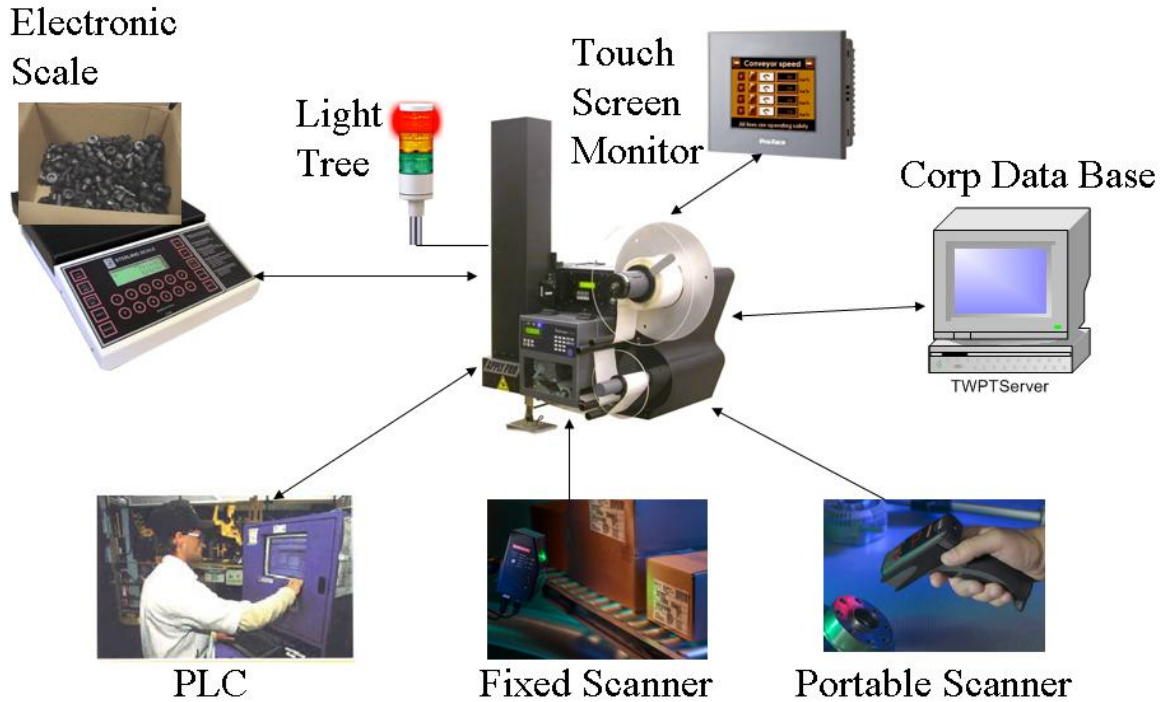

- Eliminate container mislabeling caused by human error and centralized batch label printing processes
- Weigh/identify containers at packaging and print and apply container labels with no PC in the middle
- “Earn” your container label via ToolWorx Smart Printing error proofing process
- Generate internal lot numbers and serial numbers
- Supports real-time date/time stamp, different front & side labels, automatic font and spacing adjustment, graphics, automatic calculation of shift codes, quantity calculations based on gross weight, and more
- Printer can be configured for Container Sequencing, Quantity Verification, and Traceability error proofing
- All data collection devices communicate directly to the printer so labels can be created regardless of the status of the network backbone
- Exchange data between PC databases and the printer (through either wired Ethernet or wireless connectivity) using ToolWorx PTServer™
- Works with all Intermec-based PCM Image-Tek Print & Apply systems

#1-->Weigh/Identify

#2-->Validate/Print/Apply

ToolWorx SmartApply™ Connectivity Options
