

- Specialize in data collection systems for the manufacturing and distribution industries
- Developed ToolWorx Bridge™ to provide customized, *not custom*, data collection solutions that are affordable, easy to use, and expandable
- RFID Authorized Honours Partner with Intermecc; Microsoft Partner
- Principals have over 30 years experience in Automated Data Collection

TWWarehouse™

- A software system designed to help companies manage inventory and increase efficiencies in a distribution operation
- Can link to any commercial or custom ERP / DRP system (i.e. SAP, QAD, JDE, etc.) on any hardware platform (i.e. XP/200x, Unix, AS/400)
- The system can be enhanced easily as business needs change without changing the underlying software
- Collects data automatically from scanners (both bar codes and RFID tags) and automated carousels (horizontal and vertical) and conveyors
- Runs under Windows XP/200x using Microsoft standards for maximum longevity and flexibility

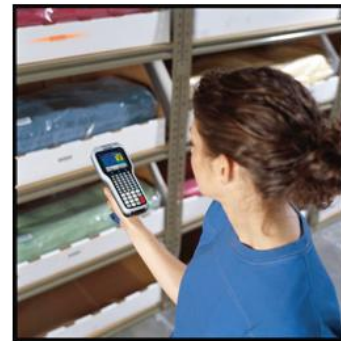

ToolWorx Product Suite

- TWLot™ Lot Traceability / Recall Management System
- TWTrack™ Returnable Container Tracking System
- TWTool™ Tool Crib System
- ToolWorx SmartPack™ End-of-Line Error Proofing System
