TOOLWORX FEATURED IN CASE STUDY

BRIGHTON, Mich., <January 20, 2004 >-- ToolWorx Information Products, Inc. ("ToolWorx"), of Brighton, Michigan announces that it has been featured in a Case Study written by Kelly Scott, a freelance writer, which has been published in the January 2004 issue of RealTime Magazine. RealTime is a publication of Intermecc Technologies Corporation ("Intermec"), of which ToolWorx is an Honors Partner. The Case Study highlights an error proofing system developed by ToolWorx and implemented at ThyssenKrupp Budd Company, one of its flagship customers. A copy of the article can be found on the ToolWorx web site (www.toolworx.com) or at Intermecc's Web Site (www.intermec.com).

About ToolWorx

Founded in 1997, ToolWorx Information Products, Inc. is a systems integrator specializing in automated data collection applications. Our product suite gives companies the ability to accurately collect information from the shop floor, warehouse or out in the field using barcodes, radio frequency identification (RFID) tags, or programmable logic controllers (PLC). The collected information is integrated real-time with a customer's internal enterprise business systems. We take pride in our ability to customize and install a system in less than 30 days. For more information, visit www.toolworx.com.

About Intermecc

Intermecc Technologies Corp., a UNOVA Inc. (NYSE:UNA) company, is a leader in global supply chain solutions and in the development, manufacture and integration of wired and wireless automated data collection, Intellitag® RFID (radio frequency identification), mobile computing systems, bar code printers and label media. The company's products and services are used by customers in many industries to improve productivity, quality and responsiveness of business operations, from supply chain

management and enterprise resource planning to field sales and service. For further information, visit www.intermec.com.

About ThyssenKrupp Budd Company

ThyssenKrupp Budd is now part of ThyssenKrupp Automotive AG of Germany, resulting from the 1999 merger of Thyssen AG and Krupp AG. ThyssenKrupp Automotive is among the largest automotive suppliers in the world with revenues approaching \$6 billion annually. ThyssenKrupp Budd currently operates 35 facilities in North America, employing approximately 11,000 people. We design and manufacture products using a variety of materials, including several grades of steel, sheet molded composites (SMC), aluminum, graphite, ductile and gray iron. ThyssenKrupp Budd produces products found on more than 100 current new vehicle models sold in North America alone and has annual revenues exceeding \$2.5 billion.
