ToolWorx Information Products Named Intermec RFID Authorized Partner

EVERETT, Wash., Oct. 27, 2004 – Intermec Technologies Corp. has named ToolWorx Information Products, Inc., an Intermec Honors Partner, to its Intermec RFID Authorized Partner program. ToolWorx is a systems integrator specializing in automatic identification applications for part traceability and enterprise error proofing.

Intermec RFID Authorized Partners complete a rigorous qualification and training process that authorizes them to resell Intermec RFID products and services and to specify Intermec RFID solutions.

“As an Intermec Partner since 1999, we are very excited to be part of the Intermec RFID Authorized Partner program,” said Ed Weber, ToolWorx Sales and Marketing Vice President. “All of our systems are based on our unique toolset that allows us to deliver configurable applications that adapt to the way our customers do business, letting them enhance their competitive advantages.”

ToolWorx has been actively involved with RFID for the past five years and offers RFID-based solutions for Lot / Part Traceability, Returnable Container Tracking, and Asset Management.

About Intermec

Intermec Technologies Corp., a UNOVA Inc. (NYSE:UNA) company, is a leader in global supply chain solutions and in the development, manufacture and integration of wired and wireless automated data collection, RFID, mobile computing systems, bar code printers and label media. The company's products and services are used by customers in many industries to improve productivity, quality and responsiveness of business operations, from supply chain management and enterprise resource planning to field sales and service.

To learn more about how companies can benefit from Intermec's supply chain technologies, contact Intermec Technologies Corp., 6001 36th Ave. West, Everett, WA 98203 USA; telephone 800-347-2636; or visit Intermec's web site at www.intermec.com. To learn more about UNOVA, visit www.unova.com.

About ToolWorx

Founded in 1997, ToolWorx Information Products, Inc. is a developer of automated data collection applications, specializing in lot/part traceability and error proofing. Its flagship product suite, ToolWorx Bridge™, gives companies the ability to accurately track the critical parts of their business on the shop floor, warehouse or out in the field using barcodes, radio frequency identification (RFID) tags, or programmable logic controllers (PLC). The collected information is integrated real-time with a customer's internal enterprise business systems. ToolWorx takes pride in its ability to install its system typically in less than 90 days. For more information, visit www.toolworx.com.
