

- Specialize in data collection systems for the manufacturing and distribution industries
- Developed ToolWorx Bridge™ to provide customized, *not custom*, data collection solutions that are affordable, easy to use, and expandable
- RFID Authorized Honours Partner for Intermec; Microsoft Independent Software Vendor (ISV) and VBA Partner
- Principals have over 30 years experience in Automated Data Collection

ToolWorx VPrinter™

- Combines Intermec Smart Printers with the RJS SV100 Verifier
- Verifies the quality of bar codes as they are being printed and voids them if they don't pass the grade
- Automatically tries to reprint any labels that "Fail"
- Supports all of Intermec's Smart Printers
- Processes all incoming Fingerprint label commands
- SV100 Verifier provides the following functions:
 - Provides both fixed position scanning and high-speed on-line ANSI method verification of linear bar codes
 - Assures that bar code print quality is at an acceptable level
 - Checks to make sure the print mechanism has not failed or gone out of adjustment during operation
 - Makes sure that the correct data is encoded and that the encoded data is in the proper format

Don't just Print – VPrint!!!

ToolWorx VPrinter™ Benefits

- Verify that the bar codes being printed are within customer spec or adhere to industry standards
- Eliminate the need to manually verify and reprint failed labels
- Avoid customer fines and quality downgrades
