TOOLWORX ANNOUNCES PROJECT COMPLETIONS FOR TRANSTAR AND PONY

BRIGHTON, Mich., <February 6, 2009 >-- ToolWorx Information Products, Inc. ("ToolWorx"), of Brighton, Michigan announces the completion of two projects – Transtar Autobody Technologies, Inc. ("Transtar") of Brighton, MI and Pony Corporation ("Pony") of St. Louis, MO. Transtar implemented the ToolWorx TWWarehouse™ warehouse automated data collection system to streamline their putaway, picking, and shipping functions. Pony implemented the ToolWorx TWTool™ inventory management system to track their customer's consignment inventory and increase inventory turns.

About ToolWorx

Founded in 1997, ToolWorx Information Products, Inc. is a developer of automated data collection applications, specializing in lot/part traceability and error proofing. Our flagship product suite, ToolWorx Bridge™, gives companies the ability to accurately collect information from the shop floor, warehouse or out in the field using barcodes, radio frequency identification (RFID) tags, or programmable logic controllers (PLC). The collected information is integrated real-time with a customer's internal enterprise business systems. We take pride in our ability to customize and install a system in less than 30 days. ToolWorx is an Intermec RFID Authorized Honours Partner. For more information, visit www.toolworx.com.
