TOOLWORX TO SPEAK AT UGS DIGITAL MANUFACTURING SYMPOSIUM

BRIGHTON, Mich., <August 21, 2006 >-- ToolWorx Information Products, Inc. ("ToolWorx"), of Brighton, Michigan announces that Ed Weber, VP Sales and Marketing, has been selected to speak at UGS Digital Manufacturing Symposium on September 14, 2006 at the Ford Conference and Event Center in Dearborn, Michigan. He will present several case studies from companies who have implemented the UGS FactoryLink™ HMI/SCADA software in their facilities.

The UGS Digital Manufacturing Symposium is an annual educational two-day event being held on September 13-14, 2006, that will demonstrate how Tecnomatix™ digital manufacturing software solutions are helping the world's leading companies gain an edge on their competition. For more information about UGS Digital Manufacturing Symposium and to register, visit https://www.ugs.com/forms/symp_dig_mfg.shtml.

About ToolWorx

Founded in 1997, ToolWorx Information Products, Inc. is a developer of automated data collection applications, specializing in lot/part traceability and error proofing. Our flagship product suite, ToolWorx Bridge™, gives companies the ability to accurately collect information from the shop floor, warehouse or out in the field using barcodes, radio frequency identification (RFID) tags, or programmable logic controllers (PLC). The collected information is integrated real-time with a customer's internal enterprise business systems. We take pride in our ability to customize and install a system in less than 30 days. For more information, visit www.toolworx.com.

About UGS

UGS is a leading global provider of product lifecycle management (PLM) software and services with nearly 4 million licensed seats and 46,000 customers worldwide. Headquartered in Plano, Texas, UGS' vision is to enable a world where organizations and

their partners collaborate through global innovation networks to deliver world-class products and services while leveraging UGS' open enterprise solutions, fulfilling the mission of enabling them to transform their process of innovation.
